

BOXAL 26

APPLICATION

Transmission/hydraulic oil for heavy duty hydraulic systems. To be used i.e. in hydromechanical transmissions, power steering mechanisms and some hydrokinetic systems.

ADVANTAGES

- Ensures optimum mechanical wear protection
- Very good anti-foam properties
- High parameter stability in changing operating environments

STANDARDS, SPECIFICATIONS

ISO 11158 – HV
DIN 51524 – HVLP

Parameters	BOXAL 26
Kinematic viscosity at 40°C, [mm ² /s]	45
Viscosity index	140
Flash point, [°C]	230
Pour point, [°C]	-32
Notice: The above parameter values are typical. The actual values are to be found in the laboratory report attached to each batch of the product.	

ADDITIONAL INFORMATION

Chemnaft oils need to be stored in steel or polyethylene containers protecting the product from damp and mechanical impurities. Given the available knowledge, the product does not have an adverse impact on humans, if used properly. Safety information is to be found in the current material safety data sheet.
