

CHEMNAFT TRANS

68, 100, 150, 220, 320, 460

APPLICATION

Oils for industrial gears with EP (Extreme Pressure) additives - for closed gears: with continuous splash or spray lubrication, working at medium temperatures with high loads. For used in construction industry and machines working in cement factory, devices in the steel and shipbuilding industry, for lubrication of steam and gas turbine gears.

ADVANTAGES

- Very good protection against mechanical wear
- Optimum protection against corrosion
- High thermo-oxidative stability
